**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(c), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(c) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 08 August 2008 has been entered.

***Allowable Subject Matter***

2. **Claims 1-3** are allowed as amended.
3. **Claims 4-13** are allowed as presented, dependent on **claim 2**.
4. The following is an examiner's statement of reasons for allowance:
  - a. As related to amended independent **claims 1-2**, an additional search was conducted based on the amendments to the claim and the existing prior art of record as well additional related art fails to teach or fairly suggest an image forming process comprising all of the specific features and limitations as recited, in combination with and particularly including applying a first liquid for increasing the wettability of a surface, applying a second liquid to the surface of the intermediate transfer medium to which the first liquid has been applied the second liquid being substantially uniformly applied to the intermediate transfer medium due to the specific function of the first liquid and finally applying an ink to the intermediate transfer medium, to which the first liquid and the

second liquid have been applied in the specifically claimed and structurally presented order.

- b. As related to amended independent **claim 3**, an additional search was conducted based on the amendments to the claim and the existing prior art of record as well additional related art fails to teach or fairly suggest an image forming process comprising all of the specific features and limitations as recited, in combination with and particularly including applying a first liquid containing a surfactant to an intermediate transfer medium, applying a second liquid to the surface of the intermediate transfer medium to which the first liquid has been applied the second liquid being substantially uniformly applied to the intermediate transfer medium due to the specific function of the first liquid and finally applying an ink to the intermediate transfer medium, to which the first liquid and the second liquid have been applied in the specifically claimed and structurally presented order.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Berg et al. (US 2003/0175048 A1) teaches an image forming process with a variety of steps that occur prior to the application of the ink to an intermediate transfer medium.
